

who benefits from the innovative  
technology of our high performance  
preparations for their printing needs?

you do.

working for you.

**SunChemical®**

a member of the DIC group

for quality high  
performance  
preparations you  
can count on,  
try Flexiverse III.

## technology that performs.

Formulated for the demanding requirements of Narrow Web Tag and Label printing, Flexiverse III dispersions deliver the quality and consistency you need. Cutting edge pigment and resin technology combine to impart chip quality at strength levels necessary for today's evolving line counts and cell volumes.

The Flexiverse III line is compatible with most aqueous ink formulas and incorporates pigments designed to deliver the most consistent quality and performance.

Sun's global footprint enables us to deliver solutions to local markets worldwide. We understand that our customers are unique and we work closely with each to understand their needs and help them to execute their strategies.

### Key attributes:

- High gloss and transparency
- Enhanced transfer properties
- High tint and print strength
- Viscosity stability
- Broad compatibility
- Consistent color
- Shock resistance
- Stir in convenience

### Applications:

- Formulated for Ink applications, Flexiverse III can be used wherever High Strength resinated dispersions are needed.
