Color & Comfort

SunSHINE Mystic Black delivers a pearlescent shimmer to make black come alive with glistening depth. It is masterfully crafted to achieve a unique combination of jetness, coverage, sparkle and luster. The rich color can be used to create beautifully bold cosmetics, including lipsticks, mascara, eyeliners, eye shadows and nail lacquers.

SunSHINE Mystic Black is based on synthetic mica (INCI designation Synthetic Fluorophlogopite) which provides a soft skin feel versus glass flakes and high color purity compared to natural mica. SunSHINE Mystic Black takes black to new depths, and your cosmetic formulations to a whole new dimension.
