

If you truly love nature...

... you will find beauty everywhere

living forest

MIRROR EYESHADOW MOUSSE

CC-FR-18-050-D11

Outlast the day with this long-lasting eye shadow mousse. Thanks to its lightweight texture, the effect transforms from a deep matte to a stunning, mirror-like finish. Easy to apply and comfortable to wear, the living forest Eyeshadow Mousse is a versatile color that can create limitless looks.

MIRROR EYESHADOW MOUSSE

CC-FR-18-050-D11

Featured Effect pigments

Cloisonné® Nu-Antique Green 828CB and Cloisonné® Nu-Antique Super Green 827CB

Cloisonné® effect pigments impart dramatic color and varied pearlescent effects to cosmetic and personal care applications, based on natural mica. Create a new dimension of color with a unique blackened effect using Cloisonné® Nu-Antique Green and Cloisonné® Nu-Antique Super Green.

Timica® Terra Black MN4498

Timica® Terra Colors are absorption effect pigments offered in a range of colors that help in color development for matching skin tone shades. Based on natural mica, they strike a perfect balance between coverage and luster, for a natural look. Timica® Terra Black enhances the matte finish and darkens the color for a more antique and intense green shade.

Reflecks™ Dimensions Shimmering Green G830Z

Reflecks™ Dimensions products offer a variety of effects and particle sizes. Based on a thin borosilicate substrate, this line provides additional versatility for cosmetic formulators. Reflecks™ Dimensions Shimmering Green provides a rich green interference effect with subtle shimmer. In this formulation it creates a beautiful green mirror-like effect.

	Ingredients	INCI	% by weight	Function
A	Water, demin.	Aqua	59.50	
	PatchH2O™ A00297	Aqua, Glycerin, Glyceryl Polyacrylate, Trehalose, Urea, Serine, Pentylene Glycol, Algin, Caprylyl Glycol, Sodium Hyaluronate, Pullulan, Disodium Phosphate, Potassium Phosphate	2.00	Active ingredient
	Euxyl K 320 (Schülke)	Phenoxyethanol, Methylparaben, Ethylparaben, Propylene Glycol	1.00	Preservative
B	Butylene Glycol	Butylene Glycol	3.00	Humectant
	Makimousse 12 (Daito Kasei Kogyo)	Sodium Polyacrylate Starch	0.50	Rheology modifier
C	ImerCare Pharma 00T (Imerys Talc)	Talc	6.00	Filler
	Makibeads SP10 (Daito Kasei Kogyo)	Acrylates/Ethylhexyl Acrylate Crosspolymer	10.00	Skin feel modifier
	Cloisonné® Nu-Antique Green 828CB	Mica, Titanium Dioxide (CI 77891), Iron Oxides (CI 77491, 77499), Chromium Oxide Greens (CI 77288)	7.00	Effect pigment
	Timica® Terra Black MN4498	Mica, Iron Oxides (CI 77491, 77499), Titanium Dioxide (CI 77891)	4.00	Effect pigment
	Cloisonné® Nu-Antique Super Green 827CB	Mica, Titanium Dioxide (CI 77891), Iron Oxides (CI 77491, 77499), Ferric Ferrocyanide (CI 77510)	1.00	Effect pigment
	Reflecks™ Dimensions Shimmering Green G830Z	Calcium Sodium Borosilicate, Titanium Dioxide (CI 77891)	6.00	Effect pigment

An aerial photograph of a dense, lush green forest. The foliage is a mix of various shades of green, from bright yellow-green to deep forest green. The trees are packed closely together, creating a textured canopy. A semi-transparent green rectangular box is centered horizontally across the middle of the image, containing white text. In the bottom right corner, there is a logo for 'COLORS & EFFECTS' which consists of a stylized circular icon with red, green, and blue segments, followed by the text 'COLORS & EFFECTS' in a bold, sans-serif font.

We create effects that are
better for our planet

An aerial photograph of a dense, lush green forest. The canopy is thick with various shades of green, from vibrant yellow-green to deep forest green. The trees are packed closely together, creating a textured, layered appearance. A semi-transparent green rectangular box is centered horizontally across the middle of the image, containing white text. In the bottom right corner, there is a logo for 'COLORS & EFFECTS' featuring a stylized circular icon with red, blue, and green segments, followed by the text 'COLORS & EFFECTS' in white.

All our palm oil-derived ingredients originate from a sustainable source and are RSPO certified

Committed to RSPO Certified Ingredients for Cosmetics

As demand for sustainability grows, the transparency and responsible sourcing of natural ingredients have become important deciding factors for consumers in their choices for cosmetics and personal care products. RSPO Certified Sustainable Palm Oil provides assurance regarding the standard of sustainable palm oil production and supports product claims.

In 2021, we added to our RSPO certified ingredients to now include lauroyl lysine, palmitic acid, sodium stearate, cetearyl alcohol and ceteareth-20; expanding our offering of effect pigments with RSPO Certified ingredients.
