

## Transparency in Supply Chain (TISC) Statement Canada

### 1. Introduction

- .1.1 As a responsible corporate citizen, Sun Chemical Group Cooperatief U.A. ("**Sun Chemical**") (and its subsidiary and affiliated companies) seeks to ensure that quality and safety standards are maintained throughout our supply chain by well-treated and fairly compensated workers in accordance with all applicable laws.
- .1.2 This TISC Statement constitutes Sun Chemical's anti-slavery and human trafficking statement for the financial year ending 31<sup>st</sup> December 2024. It is in line with section 54(1) of the U.K. Modern Slavery Act 2015 and with the annual report for Sun Chemical's Canadian subsidiary (Sun Chemical Limited) under Canada's Fighting Against Forced Labour and Child Labour in Supply Chains Act. It is also consistent with Sun Chemical's disclosure regarding the California Transparency in Supply Chains Act of 2010.

### 2. Sun Chemical Corporate Structure

- .2.1 Sun Chemical and its subsidiaries (together the "**Group**" or "**we**") are subsidiaries of DIC Corporation ("**DIC**") and a leading producer of printing inks, coatings and supplies, pigments, polymers, liquid compounds, solid compounds, and application materials. The Group operates in North America, Latin America, Europe, Asia and the Pacific region.<sup>1</sup> Together with DIC, the Group has annual sales of more than \$8.5 billion and over 22,000 employees supporting customers around the world.
- .2.2 This TISC Statement covers the steps taken by companies within the Group to ensure that slavery and human trafficking are not occurring in those businesses.

### 3. Policies

- .3.1 We are committed to ensuring that there is no modern slavery or human trafficking in any part of our business or our supply chains.
- .3.2 The Group refrains from using gold tantalum, tungsten, and tin that are mined in conditions of armed conflict and abuse in the Democratic Republic of the Congo.
- .3.3 The Group does not use any products made in whole or in part from any good from the Xinjiang Uyghur Autonomous Region in China, as prohibited by the Uyghur Forced Labor Prevention Act.
- .3.4 The DIC Group Code of Business Conduct<sup>2</sup> prohibits forced or compulsory labour and child labour. The DIC Group Code of Business Conduct applies to all companies that are subsidiaries of DIC, including all companies within the Group.
- .3.5 DIC has revised its Human Rights Policy<sup>3</sup>, which applies to all companies that are subsidiaries of DIC, including all companies within the Group, setting out procedures and guidelines for anti-slavery and human trafficking.
- .3.6 DIC also has in place a policy to protect whistleblowers who highlight to us any risk of slavery or human trafficking within our businesses, which applies to all companies that are subsidiaries of DIC, including all companies within the Group.
- .3.7 As part of the DIC policies mentioned above, the Group provides appropriate training to all executives and employees in order to ensure the effectiveness of these policies. The prohibition of forced labour and child labour is a key aspect in this training.

### 4. Due Diligence Processes

- .4.1 We ask our suppliers to verify in writing whether they have policies in place on elimination of child and illegal labour.

<sup>3</sup> [DIC Group Human Rights Policy | Sustainability | DIC Corporation \(dic-global.com\)](#).

- .4.2 Further we have started to screen our vendors on compliance topics via an integrated and digital compliance tool. By doing this we are mitigating the risk that corruption or modern slavery takes place in our supply chain.
- .4.3 In 2020 we added a Transparency in Supply Chain clause in the Terms of Purchase to assure that our vendors are aware of this topic and agree to comply with all relevant regulations.
- .4.4 We use the EcoVadis platform to rate the Corporate Social Responsibility of the Group's supply base, thereby managing and reducing risk in the supply chain. Information about the Group's sustainable procurement initiative can be found in its Corporate Sustainability Report.<sup>4</sup>
- .4.5 We also added a slavery and human trafficking section to the current Supplier Risk Assessment and to the Supplier Questionnaire for the selection of new Suppliers managed by Local Direct Purchasing.
- .4.6 In line with the EU Corporate Sustainability Reporting Directive (CSRD) and the Corporate Sustainability Due Diligence Directive (CSDDD), the Group has executing risk assessments based on double materiality. Child labor / Forced labor in the value chain has been identified as one of the material topics for Sun Chemical.

## 5. Further Steps

- .5.1 Based on the outcome of the risk assessment mentioned in paragraph 4.6 Sun Chemical will further assess its strategy on this material topic.
- .5.2 We will consider more intense measures, such as auditing or third-party verification for any suppliers that we determine are of medium or high risk. If we suspect a supplier is involved in such activities, we will conduct an inquiry and, if necessary, take corrective action.
- .5.3 In 2024, we did not identify any instances of forced labour or child labour, therefore no remediation measures were necessary.

In accordance with the requirements of Canada's Fighting Against Forced Labour and Child Labour in Supply Chains Act (in particular Section 11 thereof), I attest that this TISC Statement has been approved by the board of directors of Sun Chemical Limited.

Signed: 

Name: Rod Staveley

Title: Director

Date: 12<sup>th</sup> August 12, 2025

I have the authority to bind Sun Chemical Limited
