

Sample information sheet - Direct to shape

Product overview

Ink Series:

Developed for direct printing on plastic products especially in sectors with strict safety and quality standards, Sun Chemical's inkjet inks demonstrate a strong commitment to excellence, and are capable of delivering material compliance where low migration and low odor UV and UV LED is required.

Sustainability:

Sun Chemical is committed to sustainability initiatives and supporting the targets of our partners. Sun Chemical adopts an innovative approach to digital ink development, using carefully selected materials and enabling production efficiencies that can enable savings in waste, energy and CO2 emissions for print converters.

Key facts:

Print model:

Digital Inkjet

Substrate:

Various

Ink series:

UV - Flexible

Print Speed:

up to 100m/min

Print Head:

Various

Laydown:

Print side:

Surface

Digital:

- 1: Cyan
- 2: Magenta
- 3: Yellow
- 4: Black

Lacquer:

Various

Why digital?

Digital printing enables agile packaging and label production through high-quality customization, reduced inventory requirements, and accelerated turnaround times. By leveraging variable data printing, brands can create personalized, targeted content at scale, enhancing consumer engagement and allowing rapid adaptation to market demands.
