

Sample information sheet - Direct to shape - Beverage Can

The design content is printed direct to the aluminium can.

Product overview

Ink Series:

Designed for the demanding metal decoration segment, Sun Chemical's DigiMet series provide high quality, flexible and durable prints on pre-formed cans. Often used in combination with compatible primers and overprint varnishes for maximum performance.

Sustainability:

Sun Chemical is committed to sustainability initiatives and supporting the targets of our partners. Sun Chemical adopts an innovative approach to digital ink development, using carefully selected materials and enabling production efficiencies that can enable savings in waste, energy and CO2 emissions for print converters.

Key facts:

Print model:

Digital Inkjet

Substrate:

Aluminium

Ink series:

DigiMet- UV

Print Speed:

up to 140 cans /min

Print Head:

Various

Laydown:

Print side:

Surface

Primer:

Yes

Digital:

- 1: Cyan
- 2: Magenta
- 3: Yellow
- 4: Black

Lacquer:

Various

Why digital?

Digital printing enables agile packaging and label production through high-quality customization, reduced inventory requirements, and accelerated turnaround times. By leveraging variable data printing, brands can create personalized, targeted content at scale, enhancing consumer engagement and allowing rapid adaptation to market demands.
